Check List for Downloading and Installing SVGs and Fonts into Design Space

SVG Images

- ☐ Unzip the file to a location you will remember. I have a file called “Downloaded” where I keep them.
- ☐ Start Cricut Design Space.
- ☐ Start a new project.
- ☐ Click the Upload button (the little cloud bottom left).
- ☐ Click Upload Image in the center of the page.
- ☐ Navigate to where you unzipped the file and select it.
- ☐ Click Open.
- ☐ Click Save. The project will show up in the bottom row.
- ☐ Select it
- ☐ Press Insert Image in the lower right corner. The project will be loaded onto you page, but you may not see it.
- ☐ Change the size or change the X,Y Position to 0,0

Fonts

- ☐ Close Design Space
- ☐ Unzip the files to someplace you will remember.
- ☐ Select all the unzipped font files
- ☐ Right Click them
- ☐ Select Install for all Users. If you just click Install some programs like Inkscape will not be able to use them.
- ☐ When you open Design Space again they will be there in your font list for you to use.
